

Miracles

When working in Haiti God opens your eyes to things you never thought you could imagine. From sickness and disease to new life.

Little Myrlan is one of our many miracle babies. Her young mother was only 7-8 months pregnant when she decided to drink poison to abort her baby. When she went into labor the last thing she expected was a baby who was born alive. Myrlan fought for many months to stay alive and with Gods grace she is now nearly 8 months old and still fighting with all she's got.
